## Application

New walls: clean well, apply one layer of **ISOEDIL-A**. Then apply as base a product called **FONDO VELATURA METALLICA**; better if white. Finish with **VELATURA METALLICA** using a brush making cross and short layers or using a spatula covering a few meters per time. After 3-5 minutes smooth the product softly using a humid spatula.

Walls already painted or other surfaces: remove old detaching paintings, scrape if necessary, apply a white proper foundation, **FONDO RUVIDO**. Then apply as for new walls.
