SAPONE PER MARMORINO

Decorative Line

Other

Use The product is used for the protection of lime surfaces. Thanks to the reaction of special vegetal soaps contained in the mixture, soluble substances appear; these harden and protect the surface without altering aspect and breathability. Our SAPONE PER MARMORINO can be used as follows:

With a plastic spatula lay a light layer without covering the surface with too much mixture, otherwise the color might change (especially light tints). In water solution: in this case dilute the product in warm water in a ratio 25 parts of product and 75 parts of water. Apply it with a sponge spreading evenly the mixture on the whole surface. In both cases, when the surface is dry, remove the exceeding product with a soft cloth making the finishing shine and bright.
